

Student Tobacco Use Policy

The LdVCS Board of Trustees recognizes that tobacco use presents serious health risks and desires to provide support and assistance in the prevention and intervention of tobacco use among youth.

Students shall not smoke or use tobacco, or any product containing tobacco or nicotine, while on campus, while attending school-sponsored activities, or while under the supervision and control of LdVCS employees. This prohibition also applies to electronic nicotine delivery systems, such as electronic cigarettes, electronic hookahs, and other vapor emitting device, with or without nicotine content, or any other type of device that serves as a nicotine delivery system or that mimic the use of tobacco products of any kind.

LdVCS's comprehensive prevention/intervention program shall be based on an ongoing assessment of objective data regarding tobacco use in the schools and community and on research identifying strategies that have proven effective in preventing or reducing tobacco use among youth. The program shall be designed to meet a set of measurable goals and objectives and shall be periodically evaluated to assess progress.

LdVCS shall provide developmentally appropriate tobacco use prevention instruction for all students.

Information about smoking cessation programs shall be made available and encouraged for students and staff.

The Director shall coordinate prevention and cessation efforts with the local health department, other local agencies and community organizations and shall involve students, parents/guardians, families and the community in support of school-based programs.
